There were 5,894 non-traffic cases filed in the Third Judicial District during fiscal year 2014. There were 6,041 non-traffic cases disposed during the fiscal year. The Third Judicial District also reported 9,716 filings and 8,806 dispositions for traffic and parking cases.

The standard measure of court performance is the clearance rate, which is calculated by dividing the number of dispositions by the number of filings and multiplying by 100. Courts aspire to dispose of at least as many cases as have been filed and achieve a clearance rate of 100 percent or higher. The clearance rate for non-traffic cases in the Third Judicial District was 102 percent. The clearance rate for traffic cases was 91 percent.

The five-year trends for total non-traffic filings and dispositions in the Third Judicial District's courts are shown in the chart below.
